

ALL SAINTS ACADEMY SCIENCE EXHIBITION 2017

We are having a "Science fortnight" here in school. The children will be carrying out lots of scientific experiments and learning how and why things work/produce as they do. The children will also be making things to demonstrate their findings.

We would like to invite parents/carers into school on **Monday 13th March from 2.40 -3.10** to share with you the children's conclusions and completed outcomes.

All children will have their items on display in their classrooms and you are welcome to visit them all.

We hope you will come along to share in the children's enthusiasm as they have really enjoyed being "Scientists".
