

Homework books will be sent home on a **Friday** and should always be returned to school **throughout the week** alongside the children's **reading records** to give them every opportunity to read to adults and practise their weekly spellings (in the back of the books).

One self-selected homework activity should be completed by the following **Friday** and **neatly dated** and **shaded**.

| | | |
|---|---|--|
| Make a model that will demonstrate air resistance | Test which materials float the best | Create a fact file about a famous scientist |
| Create a poster about water resistance | Make a model that will demonstrate water resistance | Design an information book about a force |
| Carry out an experiment to test a force | Create a poster about gravity | Make a model that will demonstrate how friction occurs |

Please continue to cover the following with your children:

Daily home reading Daily spelling practise Daily times table practise
